

Friday February 2nd

07:20 – 08:00	Breakfast	
08:00 – 08:40	Spinal Cord Injury: Clinical considerations <ul style="list-style-type: none"> • Be familiar with the cornerstones for the treatment of acute spinal cord injury. • Explain the evidence behind therapeutic strategies for spinal cord injury. • Outline priorities of spinal cord injury in the emergency setting 	Dr. John Hurlbert
08:50 – 09:30	The Visual Pathways I • <ul style="list-style-type: none"> • Describe the anatomy of the visual pathways including the main connections • • Describe the main clinical conditions associated with dysfunction in the visual pathways. • Discuss illustrative cases with visual pathway conditions. 	Dr. Vivek Patel
09:40 – 10:20	The Visual Pathways II • <ul style="list-style-type: none"> • Describe the anatomy of the visual pathways including the main connections. • Describe the main clinical conditions associated with dysfunction in the visual pathways. • Discuss illustrative cases with visual pathway conditions 	Dr. Vivek Patel
10:20 - 10:30	BREAK	
10:30 – 11:10	Childhood Hydrocephalus: Contemporary Management Objectives: <ul style="list-style-type: none"> • At the end of the presentation, participants will be able to • Apply pathophysiological principles to determine the appropriate options for the management of hydrocephalus in the pediatric age group. • Utilize the results of clinical trials and registries to guide decision making. • Recognize the various clinical presentation of treatment failure 	Dr. Femi Ajani
11:10- 11:50	Spinal Dysraphism and Tethered Cord Syndrome <ol style="list-style-type: none"> 1. To recognize and identify the following pediatric spine malformations. <ul style="list-style-type: none"> • Spinal Dysraphism • Tethered Cord Syndrome • Split Cord Syndrome <p>To explain the surgical management for the above.</p>	Dr. Albert Tu
11:50- 12:30	Case discussions	Dr. Femi Ajani/Dr. Albert Tu
12:30-13:40	LUNCH	
13:40- 15:00	HOT SEAT SESSION	Dr. David McAuley/Dr. Albert Tu
15:00 – 15:20	BREAK	
15:20 – 16:00	Case Presentations – Pediatric Spine and Other cases	Dr Albert Tu
16:00 – 16:40	Craniosynostosis and Craniofacial Anomalies <ul style="list-style-type: none"> • Be able to list the main categories of craniosynostosis. • Be able to list the common syndromic types of congenital craniofacial anomalies and their distinguishing features. 	Dr. David McAuley

	<ul style="list-style-type: none"> • Be able to discuss timing and surgical decision making in the management of craniofacial anomalies and craniosynostosis. • Be able to describe an operation for craniosynostosis 	
16:40 – 17:30	<p>Vestibular and other schwannomas, Glomus tumors.</p> <p>What you should know</p> <ul style="list-style-type: none"> • Describe the epidemiology and molecular biology of vestibular schwannomas and glomus tumours (including latest thinking) • Enumerate the preop investigations and treatment options for these lesions. • Describe the surgical approaches to the treatment of these lesions and their outcomes 	Dr Gelareh Zadeh
17:30- 17:40	BREAK	
17:40 – 18:20	<ul style="list-style-type: none"> • Case Presentations 	Dr Gelareh Zadeh
18:20	Closing remarks and wrap up	Dr. Fahad Alkherayf Dr. Charles Agbi Dr Safraz Mohammed
